Une explication

Le lexique a été créé dans le but d'un accompagnement de groupe à l'utilisation de Canva.

Après avoir utilisé Canva version pro plusieurs années, nous rencontrons quelques freins étant 14 maisons de quartiers et presque autant d'halte garderies ou de multi-accueils petite enfance.

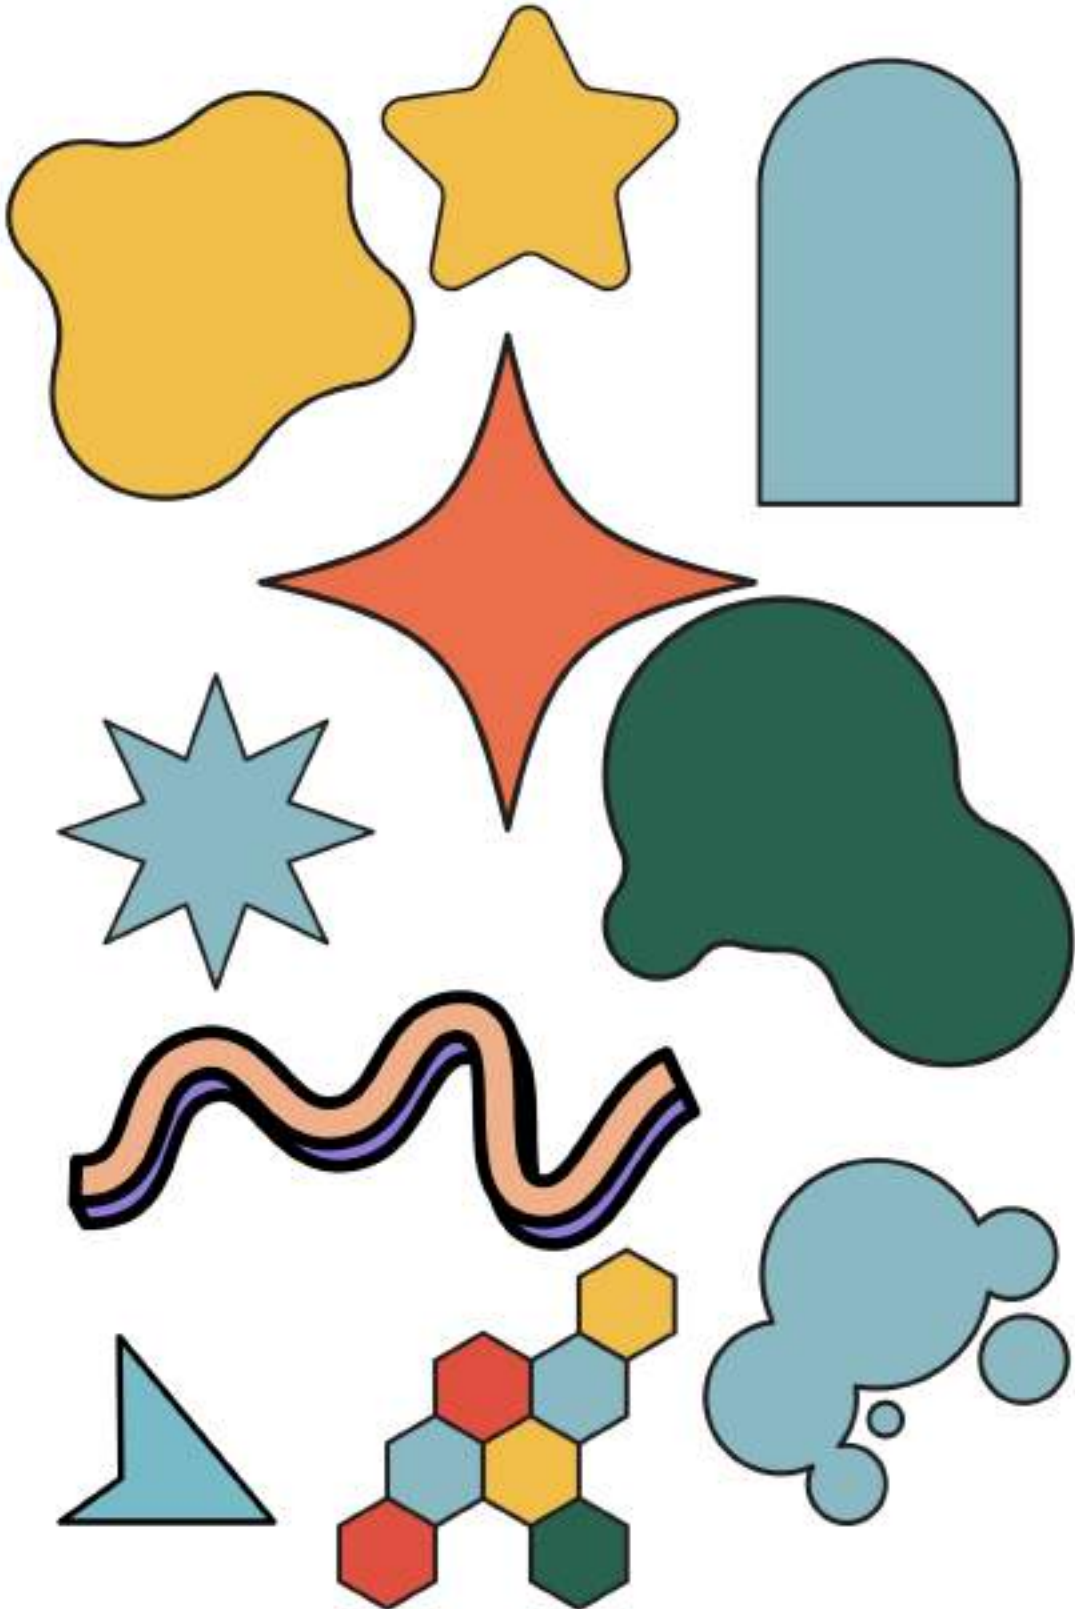

L'association a fait le choix de basculer les comptes en version entreprise.

Un gros travail a été réalisé par le service communication avec la création d'une charte et des dizaines de gabarits.

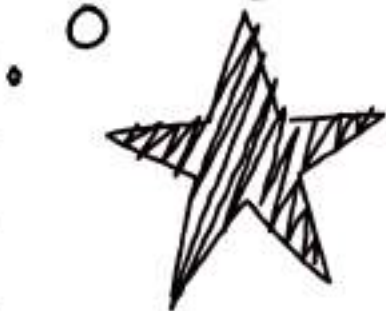

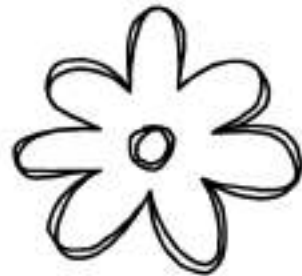

Suite à cela il a fallu prévoir des temps d'accompagnements collectifs pour expliquer :

où trouvons-nous les éléments chartés et comment les personnaliser.
